Conference
Tallinn, Estonia

28–29 MAY 2025

From Bytes to Benefits: Raising Prosperity Through Digital Transformation

A hybrid event: live in Tallinn, Noblessner and online at egovconference.ee

As of October 2024

Welcome to the e-Governance Conference, the **world's leading event** for digital governance!

In 2025, we invite you to unlock the impact of digital transformation on the economy and the financial costs and benefits it entails.

The 11th e-Governance Conference will explore how digital transformation cuts costs, drives innovation, creates jobs, and boosts GDP, all while improving access to essential services, advancing prosperity, and promoting sustainability.

Policymakers, business leaders, activists and experts will come together to examine the strategic role of digital technologies in shaping long-term economic growth and competitiveness in both developed and emerging markets.

Conference topics

In keynotes, sessions, showcase corners, and workshops, we'll explore the intersections of economy and cybersecurity, governance and engagement, infrastructure, digital architecture, interoperability, data management, digital services, and AI. Join us as we dive into the intersection of technology, policy, and economy to shape a more prosperous, secure, innovative and competitive digital future.

Speakers

The conference promises rich, insightful discussions and invaluable networking opportunities featuring notable speakers. The opening keynote will be delivered by **Alar Karis**, President of the Republic of Estonia.

Over the years, the speakers have included **Amani Abou-Zeid**, Infrastructure, Energy, ICT and Tourism Commissioner, African Union; **Paula Bogantes Zamora**, Minister of Science, Innovation, Technology and Telecommunications, Costa Rica; **Barry Lowry**, Chief Information Officer, Ireland; **Andrew Grotto**, former Senior Director for Cybersecurity Policy at the White House, USA; **Luukas Ilves**, Government CIO, Estonia; **Max Tegmark**, President of the Future of Life Institute; **Lou Downe**, former Design Director of the UK Government, UK along with other distinguished digital leaders and experts worldwide.

Join us!

The e-Governance Conference is a global event for digital governance, uniting politicians and policymakers, donors, civil servants, change managers, and civil society leaders at international, national and local levels. Since 2015, it has been an inspiring platform for shaping digital governance strategies and fostering meaningful connections among global experts, government representatives, and industry leaders and practitioners.

The conference brings together over 450 digital transformation leaders and practitioners from over 70 countries annually.

Join us in Tallinn, Estonia, to:

- Gain valuable insights into the interaction between governance, cybersecurity, interoperability, data and services with economic development.
- Promote international partnerships and share experiences.
- Discover new technologies and innovative solutions for public sector improvement.
- Learn from the success stories and best practices how other governments address common challenges with digital governance.
- Apply international learnings to local governance and digital transformation efforts.
- Engage in sessions with high-level speakers and experts for new knowledge.
- Stay updated on the latest trends and advancements in digital government.
- Gain insights into Estonia's digital government practices.

Venue

The e-Governance Conference 2025 is a hybrid conference that combines digital content, live discussions, practical workshops, and on-the-spot networking opportunities.

The event will take place at the Proto Invention Factory and Nobel Hall in Noblessner, Tallinn, the most stylish seaside quarter of the region. Once a submarine shipyard, Noblessner has turned into a neighbourhood that features historical industrial buildings with stately architecture, a marina, art galleries, and diverse cultural life.

Expo

The conference features two exposition areas: onsite at the Nobel Hall in Noblessner and online, where companies and organisations have presentation spaces and can organise interactive discussions with attendees, introduce fresh tech solutions for governments, and generate business leads. Every year, more than 20 exhibitors present their services and digital solutions onsite and online.

About the organiser

The e-Governance Conference is an annual event of the e-Governance Academy (eGA), a centre of excellence founded in 2002 to increase the prosperity and openness of societies through digital transformation. In 2025, the conference will be co-organised with Estonia's Ministry of Foreign Affairs and the Estonian Centre for International Development (ESTDEV).

Driven by our mission, the experts at eGA have partnered with over 290 organisations in 143 countries to build successful digital societies that improve their citizens' lives, strengthen their economies, and deliver transparent, democratic, and effective public administrations. From crafting strategic plans and capacity building to developing services and implementing solutions, eGA provides the support government organisations need to reshape the country's digital landscape effectively and efficiently.
