3 Challenges of the War and Our Digital Solutions

Challenge #1

**How can we provide conscripts
with a convenient platform**

for finding military vacancies and eliminate
the need to wait in lines?

The backbone of seamless mobilization

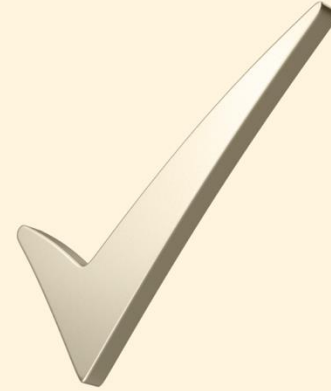

Oberih

back-end: the unified
electronic register

speeds up
processes

eliminates
manual errors

reduces
workload

data exchange
via Trembita
implemented
by eGA

provides
transparency

Reserve⁺

Ukraine's digital edge for military readiness

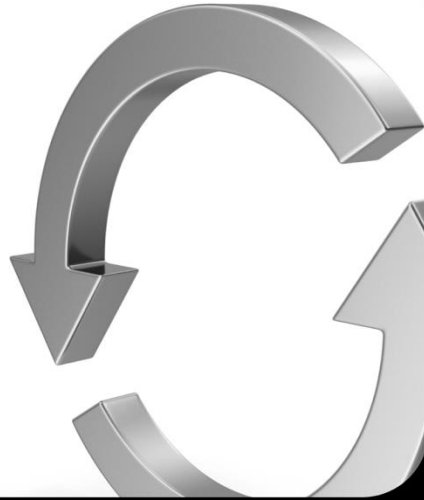

4 MILLIONS
users

All it takes is a few taps

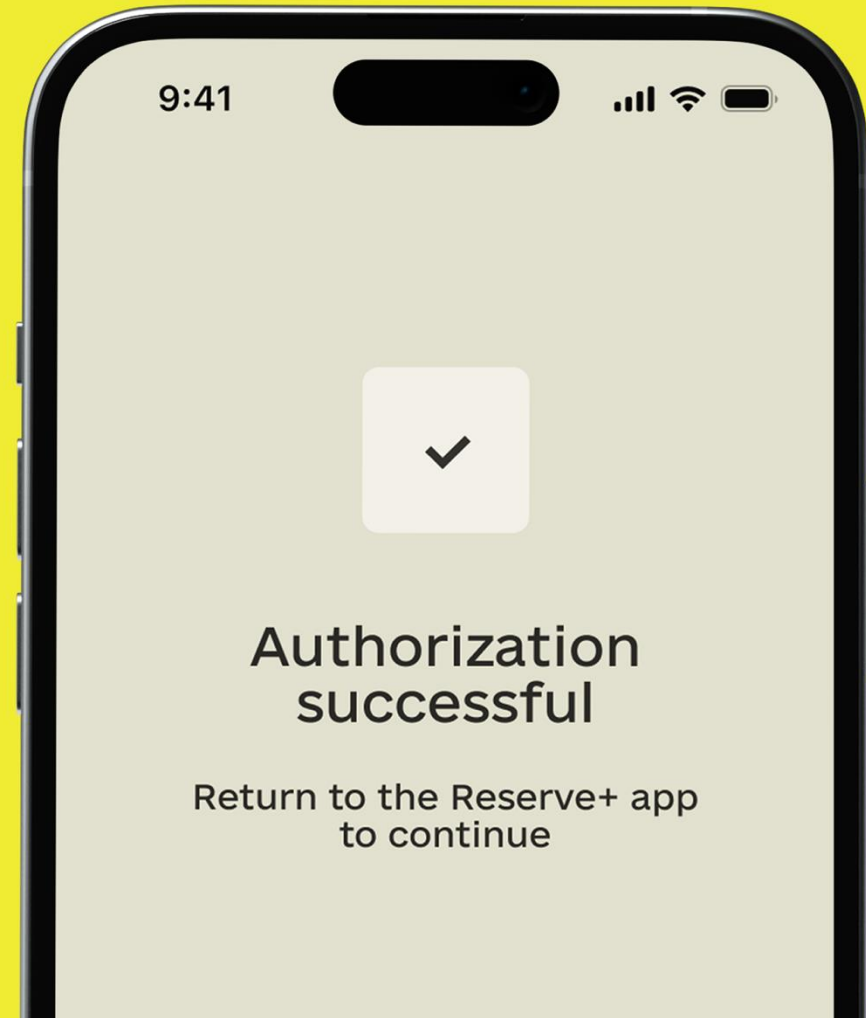

step 1

update military
registration data

step 2

obtain military
registration document

Digitalization is irreversible

number of people who updated
their data in two months
